

Title Slide

Our platform connects freelance developers with small businesses who need short-term tech help, using AI to match based on skills and budget. Our mission is to provide a seamless and efficient experience for both parties, while ensuring the quality and reliability of the work performed. With a growing market size of \$6.7 billion by 2025, and a CAGR of 15.3%, we are poised to capitalize on this trend and establish ourselves as a leader in the freelance platforms market. Our platform will provide a user-friendly interface, streamlined project management, and competitive pricing, to attract small businesses and freelancers, and to provide a high level of value and support to both parties.

AI-powered talent matching tools

Streamlined project management process

Competitive pricing and flexible payment options

User-friendly interface and high level of customer support and service

Problem Statement

The current market for freelance developers and small businesses is highly fragmented, with many platforms available but few that specialize in short-term tech help. Small businesses often struggle to find reliable and skilled developers for their projects, and freelancers face difficulties in finding consistent and well-paying work. The existing platforms often have high fees, cumbersome interfaces, and limited matching capabilities, leading to inefficient and frustrating experiences for both parties. Furthermore, the rise of remote work and digital freelance platforms has created new challenges, such as ensuring the quality and reliability of remote workers, managing projects across different time zones, and maintaining effective communication. Our platform aims to solve these problems by providing a seamless and efficient experience for both parties, while ensuring the quality and reliability of the work performed.

Highly fragmented market

Difficulty in finding reliable and skilled developers

Difficulty in finding consistent and well-paying work

High fees and cumbersome interfaces

Solution Overview

Our platform will provide a user-friendly interface that allows small businesses to easily find and hire skilled and reliable freelancers, and allows freelancers to find consistent and well-paying work. The platform will use AI-powered talent matching tools to match freelancers with the right skills and experience to the needs of small businesses. The platform will also provide a range of tools and features to support project management, including communication and collaboration tools, time tracking and invoicing, and quality control and feedback mechanisms. Our platform will be designed to be scalable and adaptable, to meet the changing needs of the market, and to provide a high level of flexibility and customization, to meet the specific needs of small businesses and freelancers.

Market Opportunity

The global freelance platforms market size is projected to reach \$6.7 billion by 2025, growing at a CAGR of 15.3%. The addressable market for short-term tech help is estimated to be around \$1.3 billion. With a growing demand for short-term tech help among small businesses, and a growing adoption of AI-powered talent matching tools, we are confident that our platform will be able to capitalize on this trend and establish itself as a leader in the market. Our platform will provide a user-friendly interface, streamlined project management, and competitive pricing, to attract small businesses and freelancers, and to provide a high level of value and support to both parties.

Growing market size

High CAGR

Growing demand for short-term tech help

Growing adoption of AI-powered talent matching tools

Business Model

Our revenue model will be based on a commission-based structure, where the platform will charge a percentage of the project fee to both small businesses and freelancers. The commission rate will be competitive with other freelance platforms, and will be designed to provide a high level of value and support to both parties. The platform will also offer a range of additional services, such as premium features and tools, to provide a high level of flexibility and customization, and to meet the specific needs of small businesses and freelancers. Our platform will be designed to be sustainable and socially responsible, and to provide a high level of transparency and accountability, to ensure that both parties have a positive experience, and that the platform is operating in a fair and ethical manner.
